

# Trying Together

## Memory Stones activity

What you will need is:

- ♦ A stone or rock
- ♦ A cup with water
- ♦ A paper towel or tissue
- ♦ Paint and paint brushes (*if you don't have paint or paint brushes, you can use markers*)

Take your stone or rock and make sure it is clean. Then just dip your brush into your paint and start painting your stone. There is no wrong way to do it!

You can paint the name of someone you want to remember,  
or someone who has died.

You can paint a butterfly, or an angel—  
It's up to you to decide.

You can paint any design you like,  
Then wait for it to dry.

After it dries, put your Memory Stone in a special place. That could be a garden at your home or in your community. It could be in your house or your room. A special place could be in your pocket, in your purse or in a backpack—something that you keep close to you a lot.
